# AMIGO

## SALES CORPORATION

The Complete Range of Fluid Products  
with Factory Automation & Solutions

# WHO WE ARE

Established in 1992, Amigo Sales Corporation has been serving industries with reliable solutions in pneumatics, hydraulics and mechanical maintenance products.

With decades of experience, we have built a strong reputation for delivering quality products, technical expertise and dependable service support across various industrial sectors

# OUR GROWTH

In 2022, we expanded our capabilities with Smartline Robotics, focusing on:

- Customized Cylinders & Power Packs
- Special Purpose Machines (SPM)
- Industrial Automation Solutions

This expansion enables us to provide end-to-end automation and fluid power solutions under one roof.

# DEALERSHIPS

We are associated with trusted and leading brands, ensuring access to high-quality and reliable industrial components.

|                                                                                     |                                                                                     |                                                                                     |                                                                                      |                                                                                       |

# ELECTROPNEUMATICS & HYDRAULICS (EP) INDIA PVT LTD

We provide a complete range of electropneumatic and hydraulic components designed for precision control, high performance, and long service life in industrial applications.

## PNEUMATIC CYLINDERS

### Standard Pneumatic Cylinders

- Bore sizes: 25 mm to 300 mm
- Stroke lengths: Up to 3000mm
- Specials: Single-acting, stroke-adjustable, double-ended, duplex and large port

### ISO Pneumatic Cylinders

- Compliant with ISO 15552, VDMA 24562
- 3 psi minimum pressure to move cylinders
- Specials: Reed switch, single acting

### ISO Compact Pneumatic Cylinders

- Dimensions as per ISO 21287
- Space saving, compact and light weight design
- Specials: Single-acting and double ended

### Customized & Non-Standard Pneumatic Cylinders

- Special stroke lengths and mounting
- Application-specific designs
- Heavy-duty and high-speed variants available

## PNEUMATIC VALVES

- Solenoid & pilot operated valves
- Stackable & compact series
- Dual sensing valves
- Air-Line Accessories:

- Quick exhaust valves
- Flow control valves
- Inline Check valves

- Rotor Seal Coupling
- Silencers
- Airblow Guns

# HYDRAULIC CYLINDERS

High-performance hydraulic cylinders designed for heavy-duty industrial applications.

## Standard Hydraulic Cylinders

- Stroke length offered up to 3500 mm
- Specials: Bore above dia. 300 mm, LDTV, double ended, stroke adjustable, large ports, working pressure up to 345 bar

## EPCN Series Hydraulic Cylinders

- Stroke length offered up to 500 mm
- Piston rod (EN - 8 hard chrome plated) is available with thread & coupler type version

## Compact Hydraulic Cylinders

- Stroke length offered up to 50 mm
- Working pressure up to 140 bar
- Piston rod is available with male; female thread & coupler type version

## Swing Clamp Cylinders

- Designed for clamping operations in fixtures
- Ideal for machining and automation setups

## Customized & Non-Standard Hydraulic Cylinders

- Tailor-made solutions for specific applications
- Special materials and coatings

# HYDRAULIC POWER PACK & SYSTEMS

We design and supply complete hydraulic power packs and systems for industrial applications.

## System Features:

- Flow handling capacities of up to 1000 lpm, pressures up to 700 bar
- All systems are built to cleanliness level of NAS class 6
- Intensifiers for high pressure applications up to 2000 bar are available

Amigo Sales Corporation offers a comprehensive range of hydraulic components from Tucson Hydrocontrols, known for their reliability, precision engineering, and consistent performance in industrial applications.

### Product Range

- Hydraulic Solenoid Valves
- Flow Control Valve
- Hi-pressure Ball Valves
- Over Central Valve
- Hose-Burst Valve
- Lift Lower Block
- Flow Dividers
- Pilot Operated Check Valves
- Poppet Type Solenoid Valves

Hi-Tech Instruments offers precision-engineered solutions for monitoring and controlling industrial parameters.

### Product Range

- Pressure Gauges
- Diaphragm gauges
- Syphon Gauges
- Manifold Valve
- Level Indicators and Controllers
- Digital and Analog Instrumentation

We offer a reliable range of industrial instruments from Orion Instruments, designed for accurate measurement and control in various process applications.

### Product Range

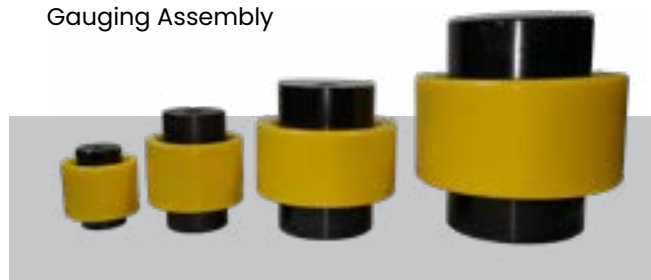

- Pressure Switches (from Vacuum to 600 Bar)
- Pressure Transmitters
- Vacuum Switches
- Temperature Switches
- Pressure Difference Switches

Amigo Sales Corporation offers a dependable range of hydraulic components from Hydax / Hydro, engineered for high performance, durability, and efficient power transmission in industrial applications.

### Product Range

- Flexible Drive Couplings (M19, M28, M38, M48, M55, M65)
- Return Line Filters
- Suction Strainers
- Pilot Check Valve
- In-Line Filters
- Breathers
- Gauge Isolator Valves, Accumulator Gauging Assembly

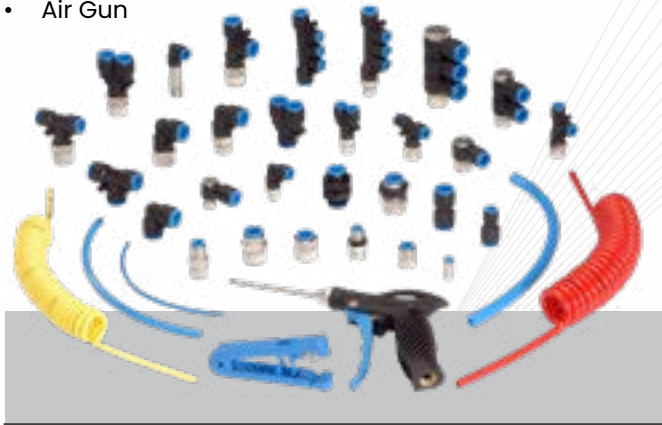

# JANATICS

Amigo Sales Corporation offers a reliable range of industrial components from Janatics, designed to support efficient fluid control and automation applications.

## Product Range

- Pneumatic Components
- Hydraulic Accessories
- Tubing and Fittings
- Air Preparation Units
- Industrial Valves
- Air Gun

# EATON

We provide high-quality hydraulic and fluid power solutions from Eaton, a globally recognized leader in power management and industrial technologies.

## Product Range

- Hydraulic Pumps and Motors
- Hydraulic Valves and Systems
- Filtration Systems
- Hose and Fittings
- Fluid Conveyance Solutions

# FESTO

A global leader in automation technology, Festo offers advanced pneumatic and electric automation solutions for modern industries.

## Product Range

- Pneumatic Drives and Control Systems
- Electric Drives and Servo Systems
- Colour Tubing & Fitting / Process Valve / Ball Valve Actuator, Angle Seat, Manual Ball Valve, etc.
- Valve Terminals and Control Cabinets  
Sensors, Controllers, and I/O Systems
- Service Combination Unit / Solenoid Valve  
Terminal Combination

# ACE

A STABILUS COMPANY

ACE provides world-class solutions for motion control and vibration damping.

## Product Range

- Industrial Shock Absorbers
- Safety Shock Absorbers
- AGS Gas Springs
- Hydraulic Dampers and Gas Springs
- Velocity and Feed Controllers
- Rotary Dampers

Enhances machine performance and operational stability.

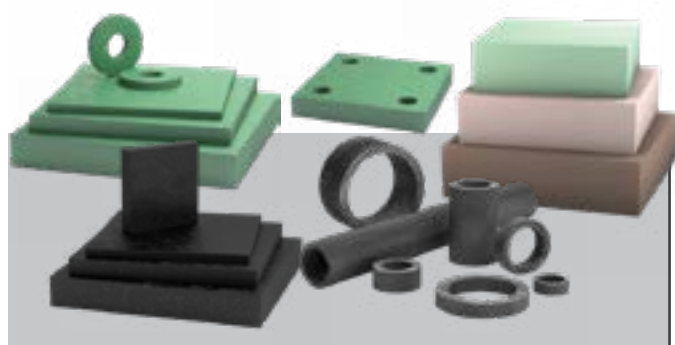

Fabreeka is a global leader in vibration isolation and shock control solutions.

### Product Range

- Anti-vibration Pads
- Isolation Mounts
- Low Frequency Pneumatic Levelling Mounts
- Pneumatic Isolation Systems

Ideal for precision machinery and heavy industrial applications.

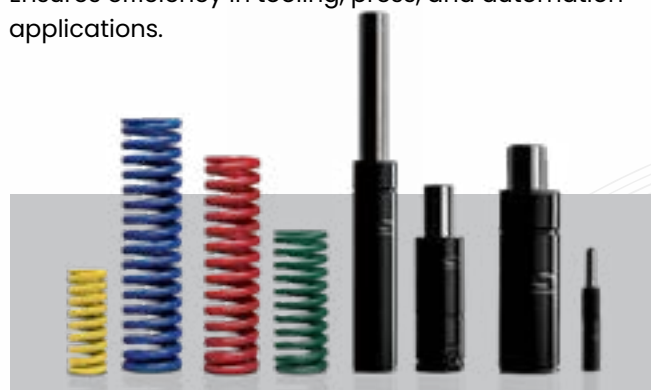

Bordignon offers high-performance solutions for tooling and automation systems.

### Product Range

- High Performance Gas Spring
- B Feder Die springs
- DTAP Threading System
- Air Scrap Remover - BRE50

Ensures efficiency in tooling, press, and automation applications.

Schmersal specializes in machine safety and automation safety systems.

### Product Range

- Solenoid Interlocks with Actuator
- Safety Foot Switch
- Safety Light curtains
- Two Hand Control Panel
- Safe Switching and Monitoring
- Safe Signal Processing
- System Solutions
- Safety Sensors
- Pull-wire Emergency Stop Switches

Baumer provides advanced sensing and measurement technologies for industrial automation.

### Product Range

- Photoelectric sensors
- Inductive and capacitive sensors
- Vision sensors
- Encoders and angle sensors
- Pressure switch and transmitter

Bürkert is a global leader in fluid control and process automation systems.

### Product Range

- Solenoid valves
- Process valves
- Flow, pressure, and temperature sensors
- Controllers and transmitters

Destaco specializes in workholding and automation tooling solutions.

### Product Range

- Pneumatic clamps
- Toggle clamps
- Grippers and end effectors
- Rotary actuators

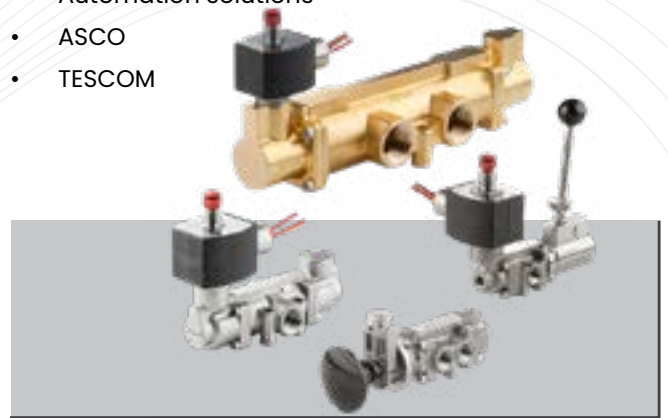

# EMERSON™

Emerson delivers advanced automation and control solutions for industrial applications.

### Product Range

- Solenoid valves (ASCO series)
- Process control valves
- Pressure and flow control systems
- Automation solutions
- ASCO
- TESCO

MOONS is a global manufacturer of motion control solutions. Ideal for automation, robotics, and motion system

### Product Range

- Stepper motors
- Servo motors
- Linear actuators
- Drives and controllers

# SMARTLINE ROBOTICS

## Factory Automation & Equipment Solutions

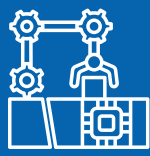

Smartline Robotics is the advanced engineering division of Amigo Sales Corporation, delivering automation-driven solutions and customized systems for modern industrial applications.

### Automation Solutions

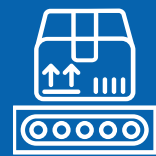

Automated Parts  
Feeding & Handling

Industrial Robotics  
Integration

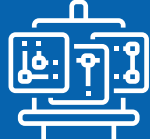

Vision Inspection &  
Quality Control

Packaging &  
Processing Systems

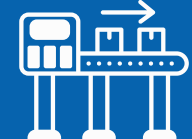

Pick & Place  
Systems

Assembly &  
Testing Systems

Welding &  
Cutting Solutions

Automated  
Production Lines

## Customized Engineering Solutions

### Customized Cylinders

- Special stroke and bore configurations
- Heavy-duty and high-speed applications
- Designed for precise and reliable operation

### Hydraulic Power Packs

- Application-specific hydraulic systems
- Compact, efficient, and robust designs
- Suitable for continuous and heavy-duty operations

### Special Purpose Machine

- Machine automation and retrofitting
- Integrated fluid power and control systems
- End-to-end project execution

# SMARTLINE ROBOTICS

## OUR **APPROACH**

- Application-focused design
- Integration of pneumatic, hydraulic, and electrical systems
- Focus on efficiency, reliability, and ease of maintenance

## KEY PROJECTS & **ACHIEVEMENTS**

SFS Group –  
**Air Leak Test Equipment**

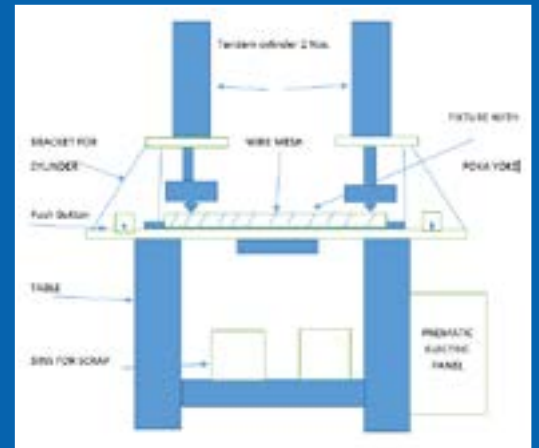

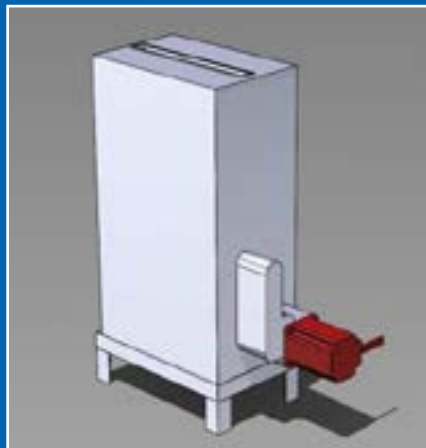

Gartech –  
**Wire Grill Cutting SPM**

Avery Dennison –  
**Reclosure Testing Machine**

Plastic Exotech –  
**Warehouse Automation System**

Avery Dennison –  
**Sticker Strip Cutting Machine**

Bharat Forge –  
**Power Pack**
